EVIDENCE FOR GOD

01 | God Created the World

The Kalam Cosmological Argument demonstrates scientific evidence for God's creation of the world. Science verifies that the universe had a beginning. Whatever begins to exist has a cause of its beginning. The universe began to exist. Therefore, the universe has a cause of its beginning. What caused its beginning? It needed to be something immaterial, eternal, powerful, relational, and creative. This Creator describes the God of the Bible!

02 | People Need Meaning

Atheist Bertrand Russell stated, "Unless you assume a God, the question of life's purpose is meaningless." However, even atheists do not live according to their own beliefs. They invent meaning and purpose to their lives.

"If the whole universe has no meaning, we should never have found out that it has no meaning: just as, if there were no light in the universe and therefore no creatures with eyes, we should never know it was dark. Dark would be without meaning."
- C.S. Lewis

03 | People Matter to God

The Bible says God knows us, and we can know Him through His Word, prayer, and the Holy Spirit. He has not abandoned us on Earth to fend for ourselves. He provided Jesus, the ultimate sacrifice for our sins. And He gives us wisdom and community to navigate life.

04 | General Revelation

In addition to His Word, God reveals Himself through nature, history, and our conscience. God shows us more about who He is throughout all of creation—its visible and invisible qualities.
